

Brinkmann EPS insulation mortar installation for the production of semidry EPS mortar

Reference	2002-BRINKMANN-EPS	Price	€22.500,-
------------------	--------------------	--------------	-----------

Make and configuration	Year of manufacture trailer	Year of manufacture machine	Configuration	Working hours	Colour
Brinkmann Transmix & Lüken own construction	2002	2007	1-Axle	+/- 2.500	Red with company advertisement

Machine specificaties		Extra equipment
Make trailer & axle	Stehmann Fahrzeugbau, BPW	Radiographic remote control
Compressor unit	Compair C 62 G, 43,3 Kw	Tool storage underneath the semitrailer, on the left and right side
Engine	Deutz F 4 M 1011 F	Compressor unit can be taken off with a forklift truck
Generator	19 KVa	230 Volt
EPS compartment	40 m3 EPS compartment	Edscha closing curtain on top of the installation
Binder compartment	Approx. 8,5 ton cement loading capacity	The mixer vessel is placed on sliding rails, which are easy to clean and maintain.
Water tank & water pump	1.000 litres, insulated water system	Pneumatic filling system for loading EPS granules.
Mixer vessel	650 litres	InfoDat control system
Production System	Horizontal production incl. dosage by screw conveyor and conveyor belt.	40 m of used mortar hose and exhaust
